“ Jack,
My condolences, regards, and prayers to you and family in the death of Vicki. When I think of her life work with children, I think of Jesus' words "Father what you have hidden from the wise and learned, you have revealed to the little children." She planted a lot of good seeds in the young that I've sure blossomed in their later years. I think also with a smile of your telling me about Vicki's first introduction to coal region meals when she was served perogies and didn't realize that was the whole meal! And with gratitude I remember your work with our young at St Columba's with the basketball teams. My best to you and family.

“ Dear Jack and Family,
Our family wishes to extend our deepest condolences to you and your family. Vicki was a bright light in all of our children's lives as well as ours. She freely and without pretense accepted our oldest daughter, who has Downs Syndrome, into her classroom a long time ago when other programs would have shied away. She truly was a compassionate, empathetic and distinguished teacher. She was a pioneer and will be truly missed.

“ Vicki nurtured my children and all but one of my grandchildren. That grandchild, Camryn, was so looking forward to being under Vicki's wing in January 2018. Camryn's sisters had told her what a wonderful person Vicki was, and the three sisters hugged and jumped for joy when it looked as if Camryn would get to go to pre-school under her care. That's the kind of legacy Vicki leaves behind--children who felt special because of her and parents who learned a subtle lesson about parenting. "All those impulses of love return to the Love that made them. There is a land of the living and a land of the dead, and the bridge is love, the only survival, the only meaning" (Thornton Wilder). Vicki, take care of all those little ones who entered heaven before their time, because I know that being around children is the only proof of heaven you need. All my love, Velma
